

**REMARKS**

Claims 97-131 are pending and stand rejected. Applicant is submitting a Request for Continued Examination (RCE) to continue prosecution of this application. Applicant's representative conducted a personal interview with the Examiner on October 27, 2011. Applicant and the undersigned appreciate the courtesy extended by the Examiner in granting the interview and during the interview. By this Amendment, Applicant submits new claims 132-344 for the Examiner's consideration. As indicated during the interview, by this amendment, Applicant is amending claims 97-122 and 125-131 to recite distinctions that are patentable. For support of recitations in the amended claims and the new claims with respect to "face-to-face communications," Applicant draws the Examiner's attention in particular to Figure 2, column 2, line 14 (see "visual communications or video conferencing"), lines 28-30 (interactive data sharing in real time with the added advantage of face-to-face communication), column 3, line 65 ("implementing visual conferences"), etc.

In addition, the undersigned is re-submitting terminal disclaimers previously filed with respect to Patent Nos. 7,848,496; 7,839,984; 7,835,509; 7,835,508; 6,323,894. The office action indicated that Applicant had submitted unsigned terminal disclaimers, when in fact, signed terminal disclaimers were submitted.

To expedite allowance of this application, the undersigned requests the Examiner to contact the undersigned to resolve any outstanding issues with these claims.

Respectfully submitted,

BERRY & ASSOCIATES P.C.
